

**Convene is a community-driven initiative working to strengthen how Travis County addresses substance use. We bring together people with lived experience, providers, advocates, and neighbors to design more responsive and reflective systems of care.**

## **What We Do**

- **Host community conversations to hear directly from residents.**
- **Build partnerships across health, housing, justice, and more.**
- **Recruit and train Community Ambassadors to share resources and gather feedback.**
- **Develop a strategic plan to improve access and services countywide.**

### **Mission**

**To create a community-centered, person-first system that supports people impacted by substance use.**

### **Vision**

**A healthier Travis County where every voice is heard when shaping substance use services and support.**

## **Want to join the convo?**

**Attend a community event, apply to be an ambassador, or share your story with us. Together, we can build a stronger, more connected response to substance use.**

**Learn more and share your ideas at
